MEMORANDUM FOR: Director of Scientific Intelligence
ATTENTION : [REDACTED] 25X1A9a
SUBJECT : Acceptance of PHOENIX Air Defense
Simulation

1. A two-day conference is scheduled for the week of 26 June between representatives of OSA, OSI, and [REDACTED] 25X1A5a1
[REDACTED] This conference will evaluate the PHOENIX Air Defense Simulation program in order to establish that all requirements were met and that the current contract may be terminated.

2. As soon as possible after the conference, it is requested that OSI furnish OSA Automation Division their written evaluation of the simulation as an accurate and reliable flight planning tool. It would be helpful if this evaluation also included recommendations for future sophistication as well as necessary immediate changes in order to remain current with existing [REDACTED] operational interceptors and tactics. All programming changes will be made in-house with occasional assistance from [REDACTED] in 25X1A5a1 25X1D0a

3. The program will continue to undergo in-house testing by OSA/Auto using data from past missions to verify programmed command and control logic. It will also at this time be used by OSA/Auto, in close coordination with OSI analysts, to aid IDEALIST mission planners.
